Request Form for LBNL Staff Presentation

Berkeley Lab is extending its commitment to education outreach to the community by providing schools and teachers with speakers representing careers in Berkeley Lab's world of science and technology. The Center for Science and Engineering Education is organizing this new outreach activity which will be continued throughout the school year.

High School and Middle School teachers interested in having a speaker come to their school for one or more class periods should submit their request online or by mail. Presenters will be prepared to deliver a 45-minute presentation that will include an overview of the Berkeley Lab, discussion of their work and career at the Lab and deliver a hands-on science activity.

Due to limitations on presenter's time and resource materials, we require that presentations are to be limited to one class at a time (typically 35 or fewer students) and the teacher to be present at all times. Berkeley Lab Career presenters are encouraged to be available for more than one class period.

To mail in your request you can download this form and send it to:

*Teacher Request
CSEE at LBNL
One Cyclotron Rd, MS 7-222
Berkeley CA, 94720,*

Teacher Name: _____ **School Name:** _____

E-mail Address: _____ **School Address:** _____
